EDUCATION

University of Mississippi, University, MS Expected May 2026
B.S. in Mathematics — Minors: Data Science, Economics — CGPA: 3.86/4.00
Sally McDonnell Barksdale Honors College — Honors Scholar
Honors Thesis (In progress): *Sumset Lower Bounds and Structure in Additive Combinatorics*
Advisor: Dr. Thai Hoang Le

HONORS AND AWARDS

The Quarles Mathematics Scholarship March 2025
(*\$5,000 competitive scholarship for outstanding Mathematics juniors; selected as 1 of 2 recipients*)
Chancellor's Honor Roll Fall 2022, Spring 2023 & 2024, Fall 2024, Fall 2025
Dean's Honor Roll Spring 2025
International Academic Excellence Scholarship 2022 - 2026
(*Full-tuition scholarship for excellent international students*)

RESEARCH EXPERIENCE

Independent Study - The Interface of Number Theory and Combinatorics Jan. 2025 - Present
Advisor: Dr. Thai Hoang Le University, MS

- Conduct independent study on additive number theory, studying and synthesizing proofs of the Cauchy Davenport Theorem, Vosper's Theorem, Brunn-Minkowski's Theorem, producing a comprehensive report that forms the basis of an honors thesis
- Engage in advanced problem-solving and proof construction, applying rigorous logical reasoning, definitions, and combinatorial methods to explore problems in additive number theory

Polymath Jr - Applications of Physics-Informed Neural Networks June 2025 - Aug. 2025
Advisor: Dr. Vincent Martinez Remote

- Applied Physics-Informed Neural Networks (PINNs) to approximate solutions of nonlinear ordinary and partial differential equations, and discovered potential applications in system modeling
- Developed an automated method to generate large datasets of power series solutions and benchmark their effectiveness in streamlining PINNs training

WORK EXPERIENCE

Mathematics Tutor – Department of Mathematics Feb. 2025 – Present
University of Mississippi University, MS

- Tutor 100+ undergraduate students in courses including Calculus, Algebra, Statistics, Trigonometry, Quantitative Reasoning, and Differential Equations, providing targeted feedback on problem-solving strategies and contributing to about 90% pass rate among regularly supported students.
- Proctor exams in the Mathematics Lab, enforcing testing policies and maintaining academic integrity

Programs Event Team Member – Pre-College Programs Aug. 2024 – Present
University of Mississippi University, MS

- Assist in coordinating and facilitating academically rigorous competitions and events such as MathCounts, Brain Brawl, Regional Science Fair for K-12 students
- Provide and develop educational tools and resources to enhance student learning outcomes, help students to bridge the gap between levels and succeed in their next academic level

Academic Mentor – Academic Resource Center*University of Mississippi*

Feb. 2023 – May 2023

University, MS

- Collaborated with other departments to organize engaging and supportive academic events that help enhance student success for UM students
- Mentored students using individualized success strategies (study planning, time management, goal-setting), supported by training in academic methodologies and data analysis techniques

LEADERSHIP EXPERIENCE

Vice President - IASA (International & American Student Alliance)*University of Mississippi*

June 2025 – Present

University, MS

- Foster cross-cultural relationships by organizing inclusive programs connecting international and American students, including Conversation Partners and International Neighbors
- Supervise the implementation of weekly English Clusters and biweekly grocery ride groups, increasing accessibility and language support for international students

Global Ambassador – Office of Global Engagement*University of Mississippi*

Aug. 2023 – Dec. 2023

University, MS

- Provided individualized mentorship to international students, offering personalized support in academic achievement, cultural adjustment, and social integration
- Partnered with 7+ student organizations to develop programs that enhanced the global student experience, increasing participation in outreach events by 167%

CONFERENCES

Graduate Research Opportunities for Women (GROW) Conference, Columbia University Sep. 2025*Selected participant (fully funded by Columbia University)***MEMBERSHIP**

Member, Association for Women in Mathematics, University of Mississippi

Aug. 2023 – Present

Member, Pi Mu Epsilon, University of Mississippi

Aug. 2022 – Present

TECHNICAL SKILLS

Programming Languages

Python, R, SQL, HTML/CSS, MATLAB

Mathematical Software

Wolfram Mathematica, LaTeX

Libraries

PyTorch, pandas, NumPy, SciPy, Matplotlib, scikit-learn

LANGUAGES

Vietnamese (*native*), English (*fluent*), French (*beginner*)
